DURASTAR

Introducing an unprecedented 4-year unlimited miles and unlimited hours integrated powertrain warranty on select DuraStar® trucks.

CUMMINS® B6.7 DIESEL POWERED ENGINE

The most efficient engine ratings on the market are offered by the Cummins B6.7 Diesel Powered Engine. The addition of an air-intake reduces parasitic losses and increases fuel economy, a lower fuel use results in less CO₂ emissions, making the B6.7 efficient and green. Additionally, higher injection pressures produce a quick throttle response at every rpm.

EATON® PROCISION™ TRANSMISSION

Stop-and-go routes are made more efficient by dual-clutch technology which delivers an 8-10% fuel economy improvement. Adjustable Urge to Move and Creep Mode provide advanced maneuverability at low speeds, allowing a safe and easy ride for any driver.

DANA SPICER® AXLES & DRIVESHAFTS

The DuraStar is an industry trailblazer, as the first truck to offer high capacity gearing with Dana Spicer E Series Steer and S140 or O60 Drive axle bundle which are compatible with air disc brakes. The Dana Spicer axles are strong yet lightweight, up to 135 lbs lighter, and the Dana Spicer Driveshafts are designed to tighter balance specifications than the competition, maximizing the smoothness of your ride.

Warranty available only on DuraStar 4300 series units with Cummins® B6.7 Engine, Eaton® Procision™ Transmission, Dana Spicer® Axles, and Driveshafts. Must be dry van, refrigerated van, roll back recovery with attic van, beverage (not tractor) expedited freight, or stake flat applications with a max GVWR of 33,000 lbs. Unit must be ordered between January 1 and July 31, 2017.
